Product Description

Product Description:

The Gaming PCAP Curved Touch Screen features a curved screen type with a curvature of 1500R, which creates a more immersive experience for the user. The curvature of the screen allows for greater viewing angles, making it easier to view content from different positions. Additionally, the curvature of the screen is perfect for gaming, as it creates a more natural viewing experience that is less straining on the eyes.

The monitor is equipped with multiple connectivity options, including HDMI, DisplayPort, and USB. These connections make it easy to connect the monitor to a variety of devices, including gaming consoles, PCs, and laptops. Whether you're playing games, watching movies, or browsing the web, the Gaming PCAP Curved Touch Screen has you covered.

The display of the Gaming PCAP Curved Touch Screen has a brightness of 300 Cd/m², which provides a clear and vibrant image. The high brightness level ensures that images are crisp and clear, even in brightly lit environments. With its HD touch screen monitor, the Gaming PCAP Curved Touch Screen allows you to experience your favorite games and movies in stunning clarity.

One of the standout features of the Gaming PCAP Curved Touch Screen is its touch screen functionality. The custom capacitive touch screen allows you to interact with your content in a whole new way. With the touch screen, you can easily navigate menus, select options, and control your games with just the touch of a finger. The touch screen also makes the monitor more intuitive and user-friendly, making it perfect for gamers of all levels.

In conclusion, the Gaming PCAP Curved Touch Screen is the ultimate gaming monitor for anyone looking for a high-quality display with touch screen functionality. With its curved screen type, multiple connectivity options, high brightness level, and custom capacitive touch screen, this monitor is sure to take your gaming experience to the next level. So why wait? Get your Gaming PCAP Curved Touch Screen today and start gaming like a pro!

Features:

Product Name: Gaming PCAP Curved Touch Screen

Technical Parameters:

Screen Type:	Curved
Size:	43 Inches
Curvature:	1500R
Aspect Ratio:	16:9
Brightness:	300 Cd/m ²
Contrast Ratio:	1000:1
Viewing Angle:	178°
Refresh Rate:	144Hz
Response Time:	1ms
Connectivity:	HDMI, DisplayPort, USB

Applications:

This 43-inch Curved Gaming Screen comes with a capacitive touch screen display that is perfect for gamers who want to take their gaming experience to the next level. With a refresh rate of 144Hz, gamers can expect smooth and seamless visuals, making it easier to react quickly to in-game events. The screen size is perfect for gaming, providing an immersive experience that allows gamers to completely lose themselves in their favorite games.

The 16:9 aspect ratio ensures that the screen is wide enough to provide a full view of games in high definition. The curvature of the screen is 1500R, which means that it is curved to match the natural curvature of the human eye. This allows gamers to view the entire screen comfortably without straining their eyes, even when sitting close to the screen.

The Capacitive Touch Screen feature is perfect for gamers who want to have a more interactive gaming experience. With this feature, gamers can control their games more precisely with their fingers. The screen's touch sensitivity is very accurate, providing gamers with a more immersive gaming experience.

This Curved Gaming PCAP Touch Screen Display is perfect for gamers who are looking for a high-quality gaming screen that offers both performance and style. It is also ideal for those who want to use their computer for other applications like video editing, graphic design, and more.

Overall, Anwell's Curved Gaming PCAP Touch Screen Display is a top-of-the-line product that offers the best of both worlds: superior

performance and stylish design.
