## Product Description

### Product Description:

This capacitive touch monitor features a 1500R curvature, which means that it provides an immersive viewing experience that wraps around your eyes. The curvature also helps to reduce eye strain and fatigue, making it perfect for extended gaming sessions. With a brightness of 300 cd/m<sup>2</sup>, this HD touch screen monitor delivers crisp and clear images even in brightly lit environments. The contrast ratio of 1000:1 ensures that colors are vibrant and vivid, giving you a truly immersive gaming experience. But what really sets this capacitive touch screen display apart is its touch screen feature. The PCAP technology used in this gaming monitor allows for multi-touch gestures, making it easy to navigate through menus and control your games with just your fingertips. And with a response time of just 8ms, you won't experience any lag or delay when using the touch screen feature. The Gaming PCAP Curved Touch Screen is also incredibly versatile. It can be used as a standalone monitor or as part of a multi-monitor setup. And with a variety of ports, including HDMI, VGA, and USB, you can easily connect it to your gaming PC or laptop. In conclusion, if you're looking for a high-quality HD touch screen monitor that delivers stunning visuals, a curved display, and a capacitive touch screen feature, then the Gaming PCAP Curved Touch Screen is the perfect choice for you.

### Applications:

The Anwell Gaming PCAP Curved Touch Screen has a viewing angle of 178°, which means that you can view the screen from any angle without experiencing any distortion. The curved screen type provides an even more immersive experience, as it wraps around your field of view. The curvature of the screen is 1500R, which is perfect for gaming as it provides a comfortable viewing experience without causing eye strain or fatigue.

The Anwell Gaming PCAP Curved Touch Screen is equipped with multiple connectivity options, including HDMI, DisplayPort, and USB. This means that you can connect it to your gaming console, computer, or laptop with ease. The product is also compatible with most operating systems, including Windows, Mac, and Linux.

The game touch screen feature of the Anwell Gaming PCAP Curved Touch Screen is what sets it apart from other gaming monitors. The touch screen is highly responsive and accurate, which makes it perfect for games that require quick reflexes and precision. You can use the touch screen to navigate through menus, select options, and even control your character in-game.

The Anwell Gaming PCAP Curved Touch Screen is perfect for a variety of gaming occasions and scenarios. Whether you're a casual gamer or a professional esports player, this product will provide you with the immersive experience you're looking for. The curved screen type and custom capacitive touch screen make it perfect for games that require precision and accuracy. The product is also perfect for multiplayer gaming, as the touch screen makes it easy to navigate through menus and settings.
