Product Description

Product Description:

The IR Touch Display is equipped with a responsive Infrared Touch Screen that allows gamers to interact with the game effortlessly. The touch screen is highly accurate and responds quickly to the touch, providing a seamless gaming experience. The product also features a fast response time of 5ms, which ensures that there is no lag or delay in the touch response.

The Side+Edge LED Bezel is another innovative feature of this product. The LED Bezel provides a stunning visual effect that enhances the gaming experience. The LED Bezel illuminates the edges of the screen, creating a mesmerizing visual effect that adds to the immersive gaming experience. With this feature, gamers can enjoy playing games in a dark room, without straining their eyes.

The product has an operating temperature of 0°C~40°C, which ensures that it can be used in a wide range of environments. The IR Touch Display is designed to operate in extreme conditions, making it ideal for gaming enthusiasts who want to play games for long hours.

In conclusion, the Gaming Infrared Touch Screen Side+Edge LED Bezel is an innovative product that is perfect for gamers. It provides accurate and responsive touch control, a fast response time, and stunning visual effects. The product's Infrared Touch Screen, Side+Edge LED Bezel, and operating temperature of 0°C~40°C make it an ideal choice for gaming enthusiasts who want to enjoy an immersive gaming experience.
