Product Description

Product Description:

The Gaming Infrared Touch Screen is compatible with Windows, Mac, and Linux operating systems, making it a versatile option for any tech setup. With a response time of only 5ms, this touch screen is incredibly fast and responsive, making it perfect for gaming and other high-intensity applications.

The touch technology used in this product is infrared, which means that it uses an array of infrared sensors to detect touch and movement. This technology provides precise and accurate touch detection, making it ideal for applications where accuracy is crucial.

In addition to its impressive technical features, the Gaming Infrared Touch Screen also boasts a sleek and modern design that will complement any tech setup. Whether you're using it for gaming, digital signage, or other industrial touch screen display needs, this touch screen will fit right in.

In summary, the Gaming Infrared Touch Screen is an exceptional product that is perfect for anyone in need of a high-quality touch screen display. With its versatile compatibility, fast response time, and precise touch detection, this touch screen is perfect for gaming, digital kiosks, and other industrial applications. Its tempered glass construction and modern design make it a durable and stylish addition to any tech setup.

Features:

Product Name: Gaming Infrared Touch Screen

With a resolution of 1920x1080 and an aspect ratio of 16:9, the Gaming Infrared Touch Monitor provides stunning graphics and visuals for an immersive gaming experience. Connect easily with its USB interface and start gaming today!

Technical Parameters:

Product Name	Game Touch Screen
Touch Technology	Infrared (IR) Touch Frame Panel
Material	Tempered Glass
Screen Size	27 Inches
Resolution	1920x1080
Aspect Ratio	16:9
Contrast Ratio	1000:1
Response Time	5ms
Refresh Rate	144Hz
Compatibility	Windows, Mac, Linux
Interface	USB

Applications:

The Anwell Industrial Touch Monitor has a high contrast ratio of 1000:1, which allows for deep blacks and bright whites. The screen has a brightness of 300 nits, which ensures that the display is visible even in brightly lit environments. The 16:9 aspect ratio provides a wide viewing angle, making it easier for gamers to view their games from different positions.

The refresh rate of 144Hz is perfect for gamers who want to enjoy a smooth gaming experience. This high refresh rate reduces motion blur and ensures that the gameplay is smooth and seamless. The Anwell Industrial Touch Monitor is compatible with Windows, Mac, and Linux, making it easy for gamers to use it with their favorite gaming platform.

The Anwell Industrial Touch Monitor is suitable for a variety of gaming occasions and scenarios. Whether you are hosting a gaming tournament or competition, or simply want to enjoy a gaming session with friends, the Digital Kiosk Touch Screen is perfect. The touch screen allows gamers to interact with the game in a more immersive way, making the gaming experience more enjoyable and engaging. In conclusion, the Anwell Industrial Touch Monitor is a perfect solution for gamers who want to take their gaming experience to the next level. The IR Touch Frame Panel technology, high contrast ratio, and high refresh rate, make it a top choice for gaming enthusiasts. The

compatibility with Windows, Mac, and Linux, ensures that gamers can use it with their favorite gaming platform. Whether you are hosting a gaming event or simply want to enjoy a gaming session with friends, the Anwell Industrial Touch Monitor is the perfect choice.
