Product Description

Product Description:

One of the standout features of this gaming monitor is the Gaming Ambient Light. This feature adds a unique touch to your gaming setup by creating a colorful glow around the edges of the screen. The LED bezel adds to the gaming experience, making it feel like you are really in the game.

The touch screen feature is perfect for gamers who want a more immersive experience. The Infrared Touch Screen is highly responsive, with a response time of just 5ms. This means that you can react quickly to any in-game events, giving you a competitive advantage over your opponents.

The contrast ratio of 1000:1 ensures that you get deep blacks and bright whites, making the images on the screen pop. This is especially important for gaming, as it allows you to see all the details in dark areas of the game. This gaming monitor is also equipped with an edge-lit LED backlighting system that makes colors more vivid and vibrant.

In conclusion, the Gaming Infrared Touch Screen Side+Edge LED Bezel is the perfect gaming monitor for gamers who want a more immersive experience. The touch screen feature, Gaming Ambient Light, and edge-lit LED backlighting system make this gaming monitor a standout product. With a viewing angle of 178°, response time of 5ms, screen size of 32 inches, and contrast ratio of 1000:1, this product is sure to impress. Get the ultimate gaming experience with this Game Touch Screen!

Features:

Product Name: 19inch Gaming Infrared Touch Screen Side+Edge LED Bezel

Screen Type: Infrared Touch Screen

Brightness: 300 Cd/m²

Screen Size: 19 Inches

Operating Temperature: 0°C~40°C

Side+Edge Led Bezel: Yes

This product features an **IR Touch Display** with an **Infrared Touch Screen Monitor** type. It also has a brightness of 300 Cd/m² and a screen size of 19 inches. The operating temperature range is from 0°C to 40°C. Additionally, this product has a side and edge LED bezel.

Applications:

One of the standout features of this gaming monitor is its Infrared Touch Screen technology. This allows for incredibly precise and responsive touch controls, making it easy to navigate through menus, adjust settings, and interact with your games in a way that's natural and intuitive.

But that's not all. With a resolution of **1280×1024**, this monitor delivers stunning visuals that are crisp, clear, and incredibly immersive. And with a brightness of 300 Cd/m², you'll be able to enjoy your games in even the brightest environments without any glare or eye strain. But what really sets this monitor apart is its lightning-fast response time of just 5ms. This means that every pixel on the screen is refreshed quickly and smoothly, so you'll never miss a beat during fast-paced action sequences or intense battles.

Whether you're a competitive gamer looking for an edge, or you just want a monitor that can keep up with all your favorite games, the Anwell Infrared Touch Screen Side+Edge LED Bezel gaming monitor is the perfect choice. So why wait? Order yours today and experience gaming like never before!
