Product Description

Product Description:

The Infrared Touch Technology used in this monitor is highly advanced, providing an unparalleled experience for users. This technology uses infrared sensors to detect touch, making it highly accurate and responsive. The technology is also very durable, making it perfect for industrial touch screen monitors or industrial touch screen display applications where reliability is key.

The Gaming Infrared Touch Screen is also very easy to use. It connects to your computer using a USB interface, making it compatible with a wide range of devices. Whether you use Windows, Mac, or Linux, this monitor will work seamlessly with your system, making it a perfect choice for gamers who want a high-quality touch screen experience.

If you're looking for a touch screen monitor that will provide an unparalleled gaming experience, the Gaming Infrared Touch Screen is the perfect choice. With its advanced touch technology, high refresh rate, and USB interface, this monitor is the ultimate choice for gamers who want the best.

Touch Technology	IR Touch Frame
Refresh Rate	144Hz
Resolution	1920x1080
Touch Points	10 Points
Material	Tempered Glass
Brightness	300 Nits
Compatibility	Windows, Mac, Linux

Applications:

Designed and manufactured in China, this gaming monitor is equipped with an Infrared Touch Technology that guarantees a fast, responsive, and accurate touch response time of 5ms. This means that your gaming commands will be executed with lightning speed, giving you an edge over your opponents.

The Gaming Infrared Touch Screen Monitor is compatible with all operating systems, including Windows, Mac, and Linux. No matter what device you use, this monitor will work seamlessly with your system, thanks to its embedded touch technology.

With a refresh rate of 144Hz, this HD Touch Screen Monitor delivers crystal clear images and graphics that will take your gaming experience to the next level. You'll enjoy smooth and fluid gameplay, with no lag or stuttering.

The monitor has 10-point touch points, which means that up to 10 fingers can be detected on the screen simultaneously. This feature is particularly useful for gamers who want to play multiplayer games with friends or family.

The Gaming Infrared Touch Screen Monitor is perfect for all gaming occasions and scenarios. Whether you're a professional gamer looking for an edge in tournaments, or a casual player who wants to enjoy immersive gaming experiences, this monitor is the perfect choice.

Overall, Anwell's Gaming Infrared Touch Screen Monitor is a top-of-the-line product that offers unparalleled performance, functionality, and design. If you want to take your gaming experience to the next level, this monitor is a must-have.
