This High Brightness Touch Monitor is perfect for gaming enthusiasts looking for an immersive experience. The FHD Touchscreen Laptop offers crystal clear visuals and the Industrial Touch Screen Display ensures durability and longevity.

Technical Parameters:

Product Name	Infrared Touch Monitor
Interface	USB
Screen Size	17 Inches
Aspect Ratio	16:9
Brightness	300 Nits
Compatibility	Windows, Mac, Linux
Response Time	5ms
Contrast Ratio	1000:1
Touch Points	10 Points
Touch Technology	Infrared
Refresh Rate	144Hz

Applications:

The Gaming Infrared Touch Screen is designed with 1 touch points, which makes it easy for multiple users to interact with the screen simultaneously. Additionally, the touch screen is compatible with different operating systems, including Windows, Mac, and Linux. This feature makes it easy for users to integrate the Gaming Infrared Touch Screen into their existing systems, regardless of the operating system they are using.

The Gaming Infrared Touch Screen has an aspect ratio of 4:3, which makes it suitable for displaying widescreen images and videos. This feature makes it a perfect choice for gamers who want to enjoy high-quality gaming experiences on a large screen. The contrast ratio of 1000:1 ensures that images and videos displayed on the screen are clear, crisp, and of high quality.

The Gaming Infrared Touch Screen is a versatile product that can be used in different occasions and scenarios. For instance, it can be used in gaming events, where gamers can enjoy immersive gaming experiences on a large screen. It can also be used in digital kiosks, where customers can interact with the touch screen to access information, make purchases, or complete transactions. The Gaming Infrared Touch Screen is also ideal for use as a commercial touch screen monitor in different industries, including healthcare, retail, hospitality, and education.
