Product Description

Product Description:

The Gaming Infrared Touch Screen boasts a response time of just 5ms, ensuring that you won't miss a single frame of the action. Whether you're playing fast-paced shooters or immersive RPGs, this monitor keeps up with your every move.

It is compatible with Windows, Mac, and Linux, making it a versatile choice for any gamer. The touch technology used in this monitor is infrared, which allows for precise and accurate touch detection, making it perfect for any game that requires quick reflexes and precise movements.

The Gaming Infrared Touch Screen is not just limited to gaming, though. It also works well for presentations, conferences, and other business applications. Its touch technology allows for interactive presentations and easy navigation of documents, making it a useful tool for any office or workspace.

If you're looking to upgrade your gaming setup or workspace, the Gaming Infrared Touch Screen is an excellent choice. This monitor is also customizable with an IR touch frame panel, allowing you to adjust the size and placement of the touch screen to fit your specific needs.
