Product Description

Product Description:

One of the standout features of this product is its impressive brightness capability of 300 Cd/m². This ensures that users can enjoy a clear and vivid display, even in low-light conditions. Additionally, the Gaming Ambient Light feature creates an ideal gaming environment by providing an adjustable LED backlight that can enhance the visual appeal of any game.

The Gaming Infrared Touch Screen Side+Edge LED Bezel product comes with a reliable power supply that can accommodate various voltage ranges. The AC 100-240V, 50/60Hz power supply ensures that users can enjoy an uninterrupted gaming experience without worrying about power fluctuations.

This product is also designed to operate within a wide range of temperature conditions. The operating temperature range of 0°C~40°C ensures that gamers can use the device in various environments without any issues.

The Gaming Infrared Touch Screen Side+Edge LED Bezel product boasts a resolution of 1920x1080, providing users with a high-definition display that can capture even the most intricate details of their games. This ensures that users can enjoy their games in stunning detail and clarity.

The touch technology used in this product is infrared, which ensures that users can enjoy a smooth and responsive experience while gaming. The IR Touch Display technology is highly accurate and can detect even the slightest touch. This ensures that users can enjoy a seamless gaming experience without any lag or delay.

In conclusion, the Gaming Infrared Touch Screen Side+Edge LED Bezel product is an exceptional gaming device that offers users a thrilling and immersive experience. Its impressive brightness capability, reliable power supply, wide range of operating temperatures, high-resolution display, and responsive touch technology make it an ideal device for gamers who want to take their gaming experience to the next level.

Features:

Product Name: Gaming Infrared Touch Screen Side+Edge LED Bezel

Touch Technology: Infrared

Screen Size: 32 Inches

Aspect Ratio: 16:9

Response Time: 5ms

Screen Type: Infrared Touch Screen

Applications:

The product is manufactured in China, ensuring quality and affordability. With a resolution of 1920x1080 and a brightness of 300 Cd/m², this gaming touch screen provides a clear and vivid display. The quick response time of 5ms ensures that gamers can react quickly to in-game events, giving them a competitive edge.

The aspect ratio of 16:9 and a screen size of 32 inches make this product ideal for gaming. The large screen size provides an immersive experience, and the wide aspect ratio ensures that gamers can see more of the game world. The Infrared Touch Screen technology provides a seamless touch experience, allowing gamers to interact with their games in a natural and intuitive way.

This product is perfect for a variety of gaming occasions and scenarios. It is ideal for use in gaming cafes, where multiple gamers can play together on a large screen. It is also ideal for gaming tournaments, where fast and accurate gameplay is essential. Additionally, it is perfect for home gaming setups, providing a high-quality gaming experience that is unmatched by traditional monitors.

The Side+Edge LED Bezel adds a stylish touch to the gaming setup, making it look modern and sleek. It also provides a comfortable viewing experience, as the LED lights reduce eye strain and fatigue during long gaming sessions.

In conclusion, Anwell's Gaming Infrared Touch Screen Side+Edge LED Bezel product is a must-have for serious gamers. With its advanced technology, large screen size, and sleek design, it is perfect for a variety of gaming occasions and scenarios. Whether you are a casual gamer or a professional, this product is sure to provide an immersive and enjoyable gaming experience.
