Product Description

Product Description:

One of the standout features of this touch screen is its 10 points Multi_Touch capability. This means that you can use all ten of your fingers to interact with the screen, allowing for more precise and intuitive gameplay. The capacitive touch J screen technology is incredibly responsive, providing a seamless and lag-free gaming experience.

The J Curved PCAP Touch screen is also designed to reduce eye strain and provide a more comfortable viewing experience. The curvature of the screen helps to minimize distortion and reduce the need for eye movement, while the PCAP touch technology ensures that your movements are accurately translated to the screen.

In addition to its impressive touch capabilities, this gaming screen also boasts a lightning-fast 1ms response time. This means that you'll experience virtually no lag or motion blur, even during fast-paced action scenes.

Connectivity is also a breeze with this gaming screen, thanks to its HDMI, DisplayPort, and USB ports. This allows you to easily connect your gaming devices and peripherals, making it a versatile addition to your gaming setup.

Overall, the Gaming PCAP Curved Touch Screen is an exceptional choice for gamers who demand the best in terms of visuals, responsiveness, and comfort. Its 10 points Multi_Touch capability and capacitive touch J screen technology make it a standout choice for those who want a more intuitive and immersive gaming experience, while its fast response time and versatile connectivity options make it a practical choice for any setup.

Features:

Product Name: Gaming PCAP J Curved Touch Screen

Refresh Rate: 144Hz
