Product Description

Product Description:

But what really sets this monitor apart is its touch screen capabilities. The PCAP technology allows for precise and accurate touch input, which is especially useful for gaming. With the Gaming J shape touch screen design, you'll have even more control over your gameplay, giving you a competitive edge over your opponents.

And if you're worried about compatibility, don't be. This monitor features 3M/ELO Protocol For Gaming, which means it's designed specifically with gamers in mind. You can rest assured that you'll have a seamless and immersive gaming experience.

But that's not all. The curved design of this monitor adds an extra level of immersion, with a curvature of 1500R. You'll feel like you're right in the middle of the action, with every detail brought to life in stunning detail. And with a viewing angle of 178°, you can enjoy your games from any angle without worrying about distortion or color loss.

In short, if you're a serious gamer looking for the ultimate gaming monitor, the PCAP Curved Touch Screen Monitor is the way to go. With its high resolution, lightning-fast response time, and advanced touch screen capabilities, you'll have everything you need to take your gameplay to the next level.

Connectivity	HDMI, DisplayPort, USB

Applications:

The Anwell Gaming PCAP Curved Touch Screen is perfect for gamers who are looking for a high-quality display that can deliver an immersive gaming experience. The J shape touch screen provides a wider viewing angle than traditional flat screens, which means that gamers can enjoy a more immersive gaming experience. The PCAP technology offers a responsive and accurate touch experience, allowing gamers to interact with the game in a more natural and intuitive way.

This monitor is ideal for a variety of gaming scenarios. Its high refresh rate makes it ideal for fast-paced games such as first-person shooters, racing games, and action games. The curved screen and wide viewing angle make it perfect for games that require a lot of peripheral vision, such as flight simulators and open-world games. The PCAP touch screen allows gamers to interact with the game in a more natural and intuitive way, making it suitable for games that require precise movements, such as puzzle games and platformers. The Anwell Gaming PCAP Curved Touch Screen is also suitable for other applications such as graphic design, video editing, and watching movies. The curved screen and high resolution provide a more immersive viewing experience. The PCAP touch screen allows for more precise control when working with graphics, making it ideal for graphic designers and video editors. The high refresh rate and wide viewing angle make it perfect for watching movies and TV shows.

In summary, the Anwell Gaming PCAP Curved Touch Screen is a high-performance monitor that is perfect for gamers and other users who require a high-quality display. With its J shape touch screen, high resolution, and fast refresh rate, this monitor is perfect for a variety of gaming scenarios and other applications such as graphic design and video editing.
