## Product Description

### Product Description:

One of the key features of this monitor is its fast response time of just 5ms. This ensures that you can enjoy smooth and seamless gameplay without any lag or delay. Whether you're playing a fast-paced action game or a slow and steady strategy game, this monitor will deliver the performance you need.

The aspect ratio of 16:9 is perfect for gaming, as it provides a widescreen display that is ideal for immersive gameplay. You'll be able to see more of the game world and enjoy a more cinematic experience. This is especially important for games with high-quality graphics and detailed environments.

The Side+Edge LED Bezel is another great feature of this monitor. It provides a stylish and modern look that will complement any gaming setup. The LED lighting adds a touch of flair and can be customized to suit your preferences.

The Gaming Infrared Touch Screen Side+Edge LED Bezel also comes with a reliable power supply that can handle AC 100-240V, 50/60Hz. This ensures that you can use the monitor in a wide range of locations without any issues.

In conclusion, if you're looking for a high-quality IR Touch Display for your slot gaming monitor, the Gaming Infrared Touch Screen Side+Edge LED Bezel is an excellent choice. With its fast response time, widescreen display, and stylish design, this monitor is sure to elevate your gaming experience to the next level.

### Features:

Product Name: Gaming Infrared Touch Screen Side+Edge LED Bezel

Screen Type: Infrared Touch Screen

Power Supply: AC 100-240V, 50/60Hz

Brightness: 300 Cd/m<sup>2</sup>

This 10points IR Touch monitor features Gaming Ambient Light and Gaming LED Monitors.

### Applications:

The Gaming Infrared Touch Screen Side+Edge LED Bezel monitor boasts an impressive contrast ratio of 1000:1. This means that the monitor delivers sharp and clear images, even when you're playing games with high-resolution graphics. Additionally, the monitor has a response time of 5ms, which is essential for gamers who want to avoid lagging or motion blur.

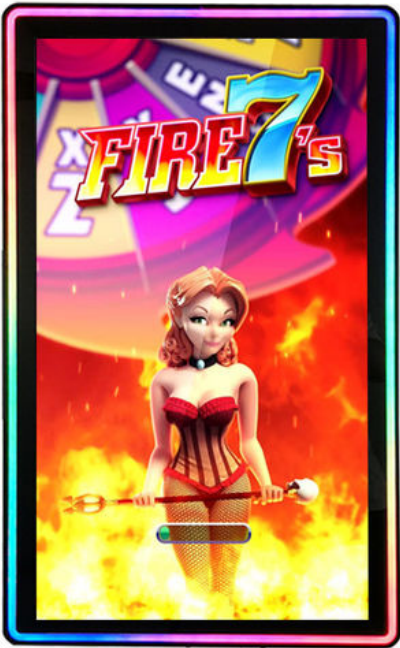

The monitor's touch technology is infrared, which makes it highly responsive and accurate. The infrared touch screen allows gamers to have a more immersive gaming experience as it responds to even the slightest touch. Additionally, the monitor's screen type is an infrared touch screen, which means that the monitor is highly durable and can withstand long hours of gameplay.

The Gaming Infrared Touch Screen Side+Edge LED Bezel monitor has a viewing angle of 178°, which makes it suitable for gamers who like to play with friends or family. The monitor's wide viewing angle ensures that everyone can enjoy the same high-quality gaming experience regardless of their position in the room.

This monitor is perfect for gaming ambient light setups as it has an LED bezel that adds to the overall gaming experience. It is also

compatible with Firelink/IGS Gaming touch Monitors, which means that gamers can connect multiple monitors to create a more immersive gaming setup. Additionally, the monitor's infrared touch slot gaming monitor makes it ideal for slot gamers who want to have a more interactive gaming experience.

In conclusion, the Gaming Infrared Touch Screen Side+Edge LED Bezel monitor from Anwell is a high-quality gaming monitor that delivers excellent performance. Its infrared touch technology and durable screen type make it an ideal choice for gamers who want to have a more immersive gaming experience. Its compatibility with Firelink/IGS Gaming touch Monitors and infrared touch slot gaming monitor also make it an excellent choice for gamers who want to create a more interactive gaming setup.
