Product Description

Product Description:

The Gaming PCAP Touch Screen Side+Edge LED Bezel is a gaming 4k touch monitor that offers exceptional visual quality, with a resolution of 3840x2160 pixels, providing crystal-clear images and vivid colors. The touch screen is made with the latest PCAP technology, which ensures superior touch accuracy, even when using gloves or other accessories. This makes it ideal for use in a variety of industries, such as healthcare, retail, and hospitality.

The Side+Edge LED Bezel design of this product is not only stylish, but also practical. It provides a seamless and immersive gaming experience, with a thin bezel that minimizes distractions and maximizes the display area. The LED edge lighting ensures that the visuals are bright and clear, even in low-light conditions. Additionally, the monitor is designed to be easily mounted, with both VESA and panel mount options available.

The Gaming PCAP Touch Screen Side+Edge LED Bezel has been rigorously tested and certified, with CE, FCC, and RoHS certifications, ensuring that it meets the highest standards of quality and safety. It is also designed to operate in a wide range of temperatures, from 0°C to 50°C, making it suitable for use in a variety of environments.

In summary, the Gaming PCAP Touch Screen Side+Edge LED Bezel is a top-of-the-line touch screen monitor that offers exceptional performance, quality, and durability. It is perfect for gamers who want to take their gaming experience to the next level, as well as for professionals in a variety of industries who require a high-quality touch screen monitor. With its Capacitive 4k Touch Screen, Side+Edge LED Bezel design, and VESA/panel mount options, this PCAP TOUCH 4k MONITOR is a must-have for any serious gamer or professional user.
