This is a 10points PCAP Touch monitor with Aristocrat Capacitive Touch Monitor.

Applications:

The AW230CS-G801 is a capacitive touch monitor that is designed to be used for various gaming applications. Its touch technology is projected capacitive, which means that it can accurately detect touch inputs and offers a fast response time of 5ms, making it perfect for fast-paced games. The touch screen monitor can also be used as a regular monitor for non-gaming applications.

The AW230CS-G801 is specifically designed to be used for the Aristocrat Helix game, which is a popular game in the gaming industry.

The touch screen monitor has a brightness of 400 nits, which makes it easy to see even in bright environments. The touch screen monitor also has side+edge LED bezel, which enhances the visual appeal of the monitor.

The AW230CS-G801 touch screen monitor can be mounted using VESA mount or panel mount, which makes it easy to install and use.

The touch screen monitor is CE certified, which means that it meets the safety and quality standards set by the European Union. The minimum order quantity for this product is 2 units.

In conclusion, the AW230CS-G801 Gaming PCAP Touch Screen Side+Edge LED Bezel by Anwell is a high-quality and reliable touch screen monitor that is perfect for gaming applications, especially for the Aristocrat Helix game. Its advanced touch technology, fast response time, and bright display make it an ideal choice for gaming enthusiasts. Its mounting options and CE certification make it a practical choice for businesses as well. Get your hands on the AW230CS-G801 today and experience the best in gaming technology!
